Sale of gun license forms by stamp vendors.

Mr. B. Kesavaiya also said that the son may be given permission to use the license after the father's death.

4) Rule 21 of the Mysore Arms Rules lays down that applications for licenses or renewal of licenses shall ordinarily be written on stamp paper. It also contemplates cases in which the licenses themselves are written or printed on stamp paper. In what cases the applications should be on stamped paper and in what cases the licenses should be on stamped paper are not specifically laid down. Again no form is prescribed for application for licenses or their renewal but forms have been prescribed for licenses.

5) The D.C. Deputy of Chikballapur D.C. suggests that licenses in Form IV may be printed in Kannada. The reason which prompts the D. M. to make the proposal in the case of Form IV seem to apply equally in the case of other forms.

States that he is in favor of having the application forms printed on Stamp paper for issue to the applicants with effect from 1st July 1917 & Submits for approval a draft form of the application, both in English & in Kannada.

13) The Stamps Comrr. States that the average number of applications received in all the Districts is about 15,000 & this number is stated to increase in future in all likelihood. In refg to R.M. Subject no. 824 of 1915, Govt. have stated that enquiries will be made if the number of applications is sufficiently large to justify printing.

14) The draft form of application proposed by the Stamps Comr may perhaps be referred to the D. G. of Police for remarks if any, as to its suitability for general adoption.

17) The subject dealt with in this Secretariat file would seem to refer only to Form IV - "License to possess Arms or Ammunition and to go armed for purposes of sport, protection or display". There are the others, Form No.I, with a fee of ten rupees, Form No.II with a fee of twenty rupees, Form No.III with a fee of ten rupees, Form No.V with a fee of four annas, Form No.VI free of all fees, and Form No.VII also free of all fees. And these are untouched, while D. R. A. subject No.34 of 1915 refers to all kinds of applications.

18) 2. As regards Form IV itself, in the proposed draft of the application no adequate space is provided to give the full description of the weapon, which is most important, nor room to mention the person from whom the weapon is to be purchased etc. The application on being referred to the Amildar is by him often referred to other subordinate officers (mostly of Police), for enquiry etc, which involves a great deal of intermediate correspondence, with the drawing up of mahazars etc, before the license is granted, and all these cannot go into the draft form. It sometimes also happens that District Magistrates of their own motion grant licenses, without reports from Amildars, and the form, if introduced, may throw a doubt on the existing powers of the District Magistrates to grant licenses without such reports.

19) 3. Frequently, reports of a confidential nature on the character and antecedents of the applicants,

NOTE—Contn. sheet

Police file no. 2097/1915-16

are necessary, and they cannot, for obvious reasons, be made on such printed forms which eventually go to the applicants.

4. Using two undetached sheets of two-anna stamp paper means additional work on the slender establishment of the District Magistrate's office, which is not desirable either.

5. No such printed forms are in use anywhere else, and it therefore appears to me that the existing practice needs no modification.

23) There are two proposals for consideration in this file. One is a representation made in the D.K. that application forms for licenses for arms may be got printed and supplied to the public. The second is a proposal made by the Deputy Commissioner of Chitaldrug that licenses issued in Form No IV (for possessing arms and to go armed for purpose of sport, protection or display) may be got printed in Kannada. The reason alleged in support of the latter proposal is that the majority of the persons applying for this license know only Kannada and are ignorant of English, and that they would understand the instructions, if they are printed in Kannada. The proposal seems reasonable, and may, if approved, be sanctioned. Rule 35 of the Rules issued under the Arms Act in British India provides clearly for the issuing licenses in the vernacular even in cases where the license is intended to be used beyond the limits of the District at the discretion of the licensing officer. There is thus analogy in support of the proposal in British Indian practice.

24) Both as regards the first proposal, there is some divergence of views. The Stamp Commissioner is of opinion that printed forms

application may be supplied, whereas the Dy of Police considers that the proposal, if sanctioned, will put the parties to much inconvenience, that no such printed forms are in use anywhere else, and that other inconvenient questions may arise if printed forms are used. There are ~~about~~ 7 forms prescribed under the Regulation, and no information is available as to how many forms of each kind may be required. In cases where an application written on impressed stamp paper, is refused, there is provision in the Rules for ordering refund. (Vide Rule 21). It does not appear quite necessary that all the correspondence carried on between the Police and the Magistrate in the matter of granting licenses should be carried on the application itself, as it may well be carried on a separate paper annexed to it. There is no doubt the fact that similar applications in British India are not printed and ... This, however, a point for orders whether the existing practice may continue or whether the standard forms may be got printed. If the forms are got printed, the rules must be altered so as to require the licensee holders to apply only on such forms. Otherwise, there may be loss to Govt.

The 2nd proposal may be cancelled. The 5th may be amended to the effect that the Second Member [illegible] the Collectors

S I R,

I have the honor to state that the Superintendent of Government Stationery Depot who was asked in this office No.159 dated 23rd July 1915 to send 1000 Kanarese forms of license form No. IV issued under the Mysore Arms Regulation for use in this District has written to me to furnish him with Kanarese samples of the said form, to enable him to get copies thereof printed for supplying the same to the Districts.

In this connection, I beg to bring to the notice of Government that the revised license form No.IV which has been printed in English and issued for use(sample herein enclosed for ready reference) does not seem to have been translated into Kanarese and printed copies thereof issued for use in the Districts.

As the majority of persons in this District that apply for the grant of licenses under the Arms Regulation do not know English and as it is absolutely necessary that the license holders should be acquainted with the instructions contained therein and the conditions under which the licenses are issued to them, I beg to suggest that licenses in the Kanarese form may be issued to them so that they may be guided by the instructions therein contained in making use of the Arms in their possession.

In these circumstances, I request that Government may be moved to get the license form issued in Kanarese and to make

necessary arrangements for copies thereof being printed and supplied for use in the several District offices.

To

Sir,

With reference to your letter, No.J.4259-60/ Police 209-15-2 dated 7th June 1916, calling for my - views in the matter of the supply of printed application forms on Stamp Papers for gun licenses and making them available for sale with Stamp vendors, I have the honor to state that the opinions of the several District - magistrates in the State were called for, and that all of them, except those of Tumkur and Shimoga, are in - favour of having the application forms printed on Stamp Paper for issue to applicants.

2. The average number of applications received in all the eight Districts, calculated on the - figures of the three years 1913, 1914 and 1915, is about 15,000, and the probabilities are that the demand will increase, rather than decrease, in future. I am, therefore, in favour of printed forms being made available for issue with effect from 1st July 1917.

3.

Reed

3. In this connection, it seems to me the more desirable and economical to have the "License Form" also printed along with-i.e. in continuation of-the application form. Since the single sheet of four - anna stamp paper, required for the purpose, is not sufficient to hold in itself both the forms (application as well as license), two undetatched sheets of two-anna stamp paper will have to be used for the purpose. A draft form of the application, both in English and in Kanada, is sent enclosed for approval, together with the License form now in use in the - State.

4. If Government approve of my suggestions, necessary further action in the matter will be - taken.
